## PERSONAL PROJECTS

### Project Pulse - Full-Stack web | [github.com/fardin04/project-pulse](https://github.com/fardin04/project-pulse) | [projectpulse.onrender.com](https://projectpulse.onrender.com)

ProjectPulse tracks delivery performance across projects with weekly check-ins, client feedback, risks, and automated health scoring. Admins manage projects, employees submit check-ins/risks, clients provide feedback, and flagged feedback auto-creates risks employees can resolve.

**TutorTrack - Full-Stack web** |  [github.com/fardin04/tutortrack](https://github.com/fardin04/tutortrack) |  [tutortrackk.netlify.app/](https://tutortrackk.netlify.app/)

TutorTrack A React.js tutoring management system with automated scheduling, student tracking, and class logging features. Built with Appwrite backend and Tailwind CSS.

**PU Found & Lost Hub** |  [github.com/fardin04/pu-found-lost-hub](https://github.com/fardin04/pu-found-lost-hub) |  [pu-found-and-lost-hub.web.app](https://pu-found-and-lost-hub.web.app)

A campus-wide lost and found portal designed to assist students and staff in registering missing items, reporting discoveries, and coordinating quick returns. This project is built using React, Vite, Tailwind CSS, and Firebase for authentication and data storage, with Cloudinary for image uploads.
